

THERMOSTATS

INDOOR WEATHER AT YOUR FINGERTIPS

TAKE CONTROL OF YOUR COMFORT WITH A CARRIER THERMOSTAT.

CONTROL

Carrier's state-of-the-art thermostat employs technology to control your indoor comfort. Using the soft, responsive up and down buttons, you can simply set your desired temperature and your Carrier thermostat will take care of the rest. The backlit LCD display shows the room temperature as well as your desired temperature. This convenient display allows you to take command of your indoor weather.

COMFORT

The Carrier thermostat combines smart technology with user-friendly features for added convenience. This thermostat provides automatic control over heating and cooling with the auto changeover function. As outdoor temperatures change, this function automatically adjusts your system to heating or cooling mode so you can enjoy consistent comfort.

RELIABILITY

In addition to superior control and comfort, the Carrier thermostat helps you keep your system operating at peak performance and efficiency. The clean filter indicator will automatically remind you to change or clean your filter to keep your system operating at peak efficiency. Proper maintenance of your system helps you avoid the potential for costly repairs. Carrier's user-friendly thermostat helps you control your indoor comfort.

SIMPLICITY

- 1 Easy operation** of the mode button selects between OFF, HEAT, COOL and AUTO operation. Heat pump thermostat models also include an EMERGENCY HEAT mode.
- 2 Airflow is monitored** by the fan button. You can use this function to choose between ON or AUTO fan operation.
- 3 Simple maintenance reminder** of the clean filter indicator ensures that you keep your system operating at peak performance and efficiency.

- 4 Added convenience** is offered by the outdoor temperature sensor. This optional feature displays the outdoor temperature on the LCD readout.

Backlit LCD displays large, easy-to-read numbers with a back-lighting feature that is activated by the touch of a button.
